SUMMARY

A motivated and dedicated Computer Science postgraduate with a B.Sc. and M.Sc. in Computer Science. Interested in software development, new technologies, and continuous learning. Eager to improve my technical and professional skills, gain practical experience, and apply my knowledge to real-world projects. A quick learner with a positive attitude, good problem-solving skills, and a willingness to take on new challenges and contribute to the growth of an organization.

PROJECTS

block chain voting (votation)

Developed a Blockchain-Based Voting System as my degree project to provide a secure, transparent, and reliable way of conducting elections. The system uses blockchain technology to maintain voting records and help prevent unauthorized modifications. The project aims to improve the security, transparency, and integrity of the voting process while ensuring that each eligible voter can cast their vote efficiently

skilltrends(curriculum enhancements)

Developed SkillTrends as my postgraduate project using Python (Django) and Flutter. The system analyzes industry skill trends and identifies skill gaps between academic curricula and current industry requirements. It helps colleges understand emerging technologies and in-demand skills, supporting curriculum improvements, training programs, workshops, and certification opportunities. The project aims to bridge the gap between academic education and industry expectations while helping students develop relevant skills for their future careers

personal portfolio

Designed and developed a personal portfolio website to showcase my academic qualifications, technical skills, projects, and professional interests. The portfolio highlights my experience in software development and provides an overview of my work, achievements, and continuous learning journey. It serves as a platform to present my abilities and professional profile

EDUCATION

2024-2026

master of computer science

Calicut University

ccsit Vadakara

Bachelor of computer science

2020-2023

Calicut University

Institute of human resources development (ihrd) nadhapuram

ADDITIONAL INFORMATION

- **Technical Skills** : Python, Dart, Django, Flutter HTML, CSS, JavaScript,SQL
- **Languages**: English, Malay, tamil

Awards & Activities

- Completed postgraduate academic project in SkillTrends.
- Developed a personal portfolio website to showcase technical skills and projects.
- Actively interested in learning new technologies and developing professional skills
